# NATIONAL CONFERENCE OF EMERGING TRENDS AND RESEARCH IN COMPUTER SCIENCE & ENGINEERING 2018

on  
**22 & 23/06/2018**

Organized By:  
Department of Computer  
Science & Engineering  
Lakshmi Narain College of  
Technology, Indore

## Sponsored By

## About NCETRCSE-2018

National Conference of Emerging Trends and Research in Computer Science & Engineering 2018 is an annual conference started by dept. of Computer Science, LNCT Indore. Every year it will be hosted by the department from 2018 onwards, in the areas of Computer Science Engineering. We have planned to organize the 1<sup>st</sup> edition of the conference with the collaboration of the International Journal, and some government bodies.

### Objective

- Promote research through knowledge sharing
- Networking opportunities for the researchers and the experts community
- Promote upcoming technologies by understanding future trends and challenges
- Innovating to improve quality in education and creating the industry ready professionals.

### Salient Features

- National and international relevance
- National and international Association as knowledge partners.
- Opportunities for the researchers and scholars to present their research paper based on original work.
- 100s of papers are expected to be presented in the conference
- Conference proceedings will be published online and also made available online in UGC approved International Journal.

### Benefits of Participations

- The institute has taken the initiative to publish extended work of the submitted article in the UGC approved international Journal in conference proceedings.

## About LNCT Indore

LNCT Group of Colleges is one of the oldest and largest education group in central India. Founded in 1994 Lakshmi Narain Group of Colleges has the privilege of being the First Private (self financed ) institute of M.P.LNCT Group offers program from Diploma, Bachelor, Master's and Doctorate-level programs.

Lakshmi Narain College of Technology, Indore (LNCT) is one of the leading private Technical and Professional institutes in the Indore today. LNCT Indore was founded in 2004 by "H.K. Education Trust, Bhopal" and all the courses of the institute are approved by AICTE Delhi, Govt. of India. Department of the Technical Education, Govt. of M.P. and are affiliated to Rajiv Gandhi Proudyogikis Vishwavidyalaya, Technical University of Madhya Pradesh and Devi Ahilya Vishwavidyalaya (University) Indore. In its span of 10 years the institute has developed into a leading engineering and professional college in the region with state of the art infrastructure, faculty and facilities.

### About Department

The department of Computer Science & Engineering (CSE) has been established in the year 2004 with an initial intake of 60 students. The intake has been increased to 120 seats in 2006. In addition to this, M.Tech. with a specialization in "Computer Science and Engineering" have been started in 2009 with an intake of 18 seats which increased to 24 seats in 2012. The teaching-learning process comprises digital class-room teaching, along with tutorials, practical's, seminars, viva-voce, projects and also series of audio visual CD are available for various subjects delivered by IIT professors. The main goal is to get direct help and support regarding the academics, projects and thesis work.

## Call for papers

- Authors interested in contribution to research can submit the research paper/ technical papers based on original research work as per the important dates by mailing us on:  
[ncetr.computer@lnctindore.com](mailto:ncetr.computer@lnctindore.com)
- Or register on  
<https://goo.gl/forms/dUPRxbli0gKdSjS52>

## Important Dates

Last date for paper submission	10-04-2018
Acceptance notification	12-04-2018
Final menu-script due	15-04-2018
Registration	15-04-2018
Conference	22-06-2018

## Registration details and fees

- Students and research scholar 1500/-
- Academia and Industry Person 2500/-
- Attendees 500/-

## Topics Covered

- Cryptography and applications
- Data encryption
- Data Mining
- Genetic algorithms and applications
- Neural networks
- Intelligent systems
- Multimedia computing
- Advanced Algorithms
- Architecture Evaluations
- Artificial intelligence
- Automation and Mobile Robots
- Cloud Computing
- Computer Science and its applications
- Information Technology
- And Many more.....
